MEMORANDUM FOR: [REDACTED]  
Office of Congressional AffairsFROM: [REDACTED]  
Director of Communications

25X1

SUBJECT: Proposed Legislation, H.R. 122 [REDACTED]

REFERENCE: H.R. 122

1. I appreciate your alerting us concerning the introduction of H.R. 122 to the Congress. We are interested in the outcome of the deliberations on this particular bill and would appreciate periodic reports on its progress. [REDACTED]

2. The Office of Communications (OC) would welcome a "properly chartered" Office of Telecommunications Policy, to heighten national and White House focus on this critical resource. Our main concerns in the formation of such an Office within the Executive Branch are the authority the Director of Telecommunications Policy might have in arbitrating disputes, and the relationship between the Director of Telecommunications Policy and the National Communications Systems (NCS). OC must remain responsive to the DCI and the Agency under a variety of normal and stressed environments,

[REDACTED] While the proposed legislation does not appear to adversely affect Agency equities, we would like to monitor the process and assess any changes. Please keep us posted. [REDACTED]
